Statement of CPNI Procedures and Compliance

**Statement of CPNI Procedures and Compliance
For 2008
Mundo Telecom, Inc.**

Mundo Telecom, Inc. is a very small Texas CLEC, providing prepaid basic local exchange service only to approximately ten customers. We do not currently offer long distance service.

We do not use or permit access to CPNI to market any telecommunications or non-telecommunications services. Mundo Telecom has trained its personnel not to use CPNI for marketing purposes.

We have put into place processes to safeguard our customers' CPNI and call detail information from improper use or disclosure by employees; and to discover and protect against attempts by third parties to gain unauthorized access to customer CPNI. No CPNI is disclosed to any outsiders except by Subpoena from a court. Employees have been trained by the president of the company not to divulge CPNI under any circumstances. No employee has access to all information in any account.

We do not disclose call detail over the telephone or online or in any other way. No information is disclosed over the phone by any employee. Account information will be provided in person to the account holder only upon presentation of a valid photo ID.

Customer requested changes to account information are confirmed, upon request, via US Mail only to the address of record.

We have procedures in place to notify law enforcement in the event of a breach of customers' CPNI and to ensure that customers are not notified of the breach before the time period set forth in the FCC's rules, or, if applicable, when so authorized by law enforcement.

We have not experienced any breaches of CPNI to date, but will maintain records, either written or electronic, of any and all breaches discovered and notifications made to the USSS and the FBI, and to customers.

We have not taken any actions against data brokers in the last year.

We did not receive any customer complaints about the unauthorized release of CPNI or the unauthorized disclosure of CPNI in calendar year 2008.

We do not have any information with respect to the processes Pretexters are using to attempt to access CPNI.
